

TOUCHPAD LEVER LOCK

PR3S

Smarter Living

- Multiple choices as fingerprint, and PIN code(or Key tag) meet different unlocking needs and allow users to enjoy a smart and convenient door opening experience.
- Designed with a sleek style to complement your home's interior, you can lock up your home office, wine cellar or storage room and never have to worry about keys.

Benefits of PR3S with membrane touchpad.

Fingerprint Resistant

The PR3S features a membrane switch to prevent code detection from fingerprints on the touchpad.

Extreme Temperature Safety

Membrane switches can be able to withstand harsh temperatures.

Glove-Friendly Touchpad

Membrane switches are the best user interface display option for those working in environments that require gloves because the touchpad can be embossed.

Easy to Clean & Maintain

Membrane switches are resistant to water and other liquids and easy to clean.
